To Whom It May Concern:

Over the years, Hospice Caledon has provided support and comfort to many people in our community. A few wonderful people have joined us and have shared their own gifts with our families and clients. One of these angels is Andrea Fielding.

Andrea has created a fantastic CD of rejuvenation and healing meditations. We share it with each of our clients and their families. The response has been overwhelming. All who listen find it helpful, and inspirational.

This CD has become a pivotal tool for each of our clients to become actively involved in their wellness, both spiritually and emotionally. This CD assists each individual to unwind and move forward so they may experience relaxation and serenity.

Please consider listening to this CD and sharing it with you clients and their families. The rewards are endless.

Thank you  
Wendy Graham  
Program Director  
Hospice Caledon
